ART UNIT 2872

Art Unit: 2872

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 9, lines 17-18, the language "said mirror mounting means" has been changed to read --said mirror mounting bracket--.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a mirror parking mechanism for a vehicle exterior rear view mirror that rotates a mirror head to a parked position comprising a mirror mounting bracket, a mirror head, a pair of arms each attached at one end to said mirror head and the other end pivotally connected at a pivot connection to said mounting bracket, a pair of detents acting between said mirror mounting bracket and each said arm, a spring acting against said detents, a gear wheel secured with respect to each said arm, a pair of worm drives each having a shaft that is journaled in bearings in said mirror mounting bracket and a motor to drive each said worm drive, wherein said mirror parking mechanism includes the limitations and arrangement as recited in claim 9, lines 3-26 nor a mirror mounting bracket, a mirror head pivotally connected to said mounting bracket, a detent having a recess on the mirror head and a projection that locates said recess, a spring having a plate hinged at one end and positioned so that the other end bears against and applies force on said projection of said detent, a gear wheel secured with respect to said mirror head, a worm drive having a shaft that is journaled in bearings in said mirror mounting bracket and a motor to drive
